important and urgent

Dear Friends,

Here I send you a set of letter and documents to quickly be checked by you. Please give me your answer as quickly as possible.

We have made the statute of the coming NGO, whose name will be the International Federation for East Timor, if no special objection comes to us in due time.

Since your organization's participation is essential, we don't want to go ahead without your approval. If there are groups which hesitate to join it at this moment, we will start the IFET with groups which agree with the framework described in the statute.

We wait for your answer. Please answer by fax.

Best regards,

Aki

P.S I'm really sorry for consuming much fax paper!
